

Jeff Schodowski

Jeff Schodowski is a high energy, customer-focused consulting executive with over 25 years of experience delivering business outcomes by specializing in data advisory, transformation, modernization, and practical artificial intelligence (AI). As the Vice President of Consulting Services at Datavail, he has demonstrated his ability to drive innovation, grow high-performing teams, and deliver exceptional value to clients across various industries.

Prior to leading the consulting organization, Jeff served as the Global Head of Data, Analytics, and AI at Datavail where he materially grew data and analytic services in each of his three years in role.
